# K 71

# HEARO Player

## Portable Powerful Sound

Refreshingly new: AKG sound in a featherweight package at a tempting price. In addition, the K 71 draw very little current so they are ideal for use with portable equipment.

## Headphone Surround Software

Looking to upgrade your computer to a surround system for headphones with no extra hardware or complex modifications? Then the AKG HEARO Player is for you. This multimedia innovation delivers full-blown surround sound through hardware or wireless headphones.

Two technologies work together to bring incredible spatial depth to headphone sound: **IVA** processing developed by AKG and **LOGIC7** decoding.

The HEARO Player is definitely the easiest and most cost efficient way to upgrade your personal or laptop computer to surround sound.

- Eight-channel audio plug-in for Windows Media® Player 9 Series
