the new,

all new

**JIM LANSING
THEATRE
SOUND SYSTEMS**

*A complete line of single and multiple
channel systems for every size theatre.*

Ordinary theatre sound systems cannot take advantage of the extended range available with magnetic film.

The new Jim Lansing Theatre Systems, designed and developed after two years of extensive research, provide full realization of the benefits of these new recording techniques.

The result is a smoother response, extended on both ends of the spectrum, with amazingly clear and life-like reproduction.

**NEW PISTON-LIKE
CONES FOR
THEATRE HORNS!**

**NEW 500-CYCLE
DIVIDING NETWORK!**
5 position attenuation.
Fully compensated circuit.

**NEW DRIVER AND
KOUSTICAL LENS!**
Highest power handling
capacity and smoothest
controlled distribution of
any single theatre unit!
