

SCS Series

SCS85, SCS135

SCS135

SCS85

- Four identical ultra compact satellite speakers
- Magnetically shielded to prevent colour picture interference
- One powerfull, voice matched center channel speaker
- Wall brackets and speaker cables included

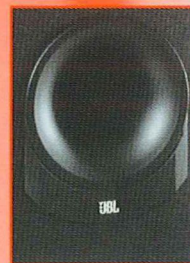

JBL

SCS Series

SCS85, SCS135

Designed by JBL to provide uncompromising surround performance, the SCS Series contains four compact satellite speakers, one true center channel speaker, and separate subwoofers for optimum deep bass reproduction to generate a smooth, natural, sound-field for a totally surround experience from music or movies. On SCS135, an amazing 100 Watts of bass from the system's active subwoofer adds the power

and sound required to truly fill the listening room. The Subwoofer activates itself when it senses a signal and turns off automatically after 20 minutes of silence. To optimize base performance this active Subwoofer includes a carefully selected JBL bass driver and a precision-tuned bass reflex enclosure. The resulting output provides a solid and commanding bass for all audio and audio-visual sound.

Specifications SCS85 / SCS135

	Satellites	Center	Subwoofer
System Frequency Response (-6dB):	120 Hz - 20 kHz	120 Hz - 20 kHz	35 Hz - 120 Hz
Recommended Power:	10 - 50 Watts	10 - 50 Watts	-
Nominal Impedance:	8 Ohms	8 Ohms	-
Sensitivity (1 Watt/1m):	86 dB	88 dB	-
Drivers tweeter (video-shielded):	One 1/2" titanium-laminate dome	One 1/2" titanium-laminate dome	-
Drivers midrange (video-shielded):	One 3"	Two 3"	-
Drivers woofer:	-	-	8" woofer, bass-reflex enclosure
Built-in Amplifier* (SCS135):	-	-	100 Watts
Dimensions (HxWxD):	111x81x95 mm	83x194x95 mm	381x330x356 mm
Weight SCS85:	0.5 kg	0.86 kg	11.6 kg
Weight SCS135:	0.5 kg	0.86 kg	13.6 kg

SCS Series

SCS175

SCS175

- Four identical satellites speakers and one powerful, voice matched center channel, finished in luxurious laminated black, beech or brown cherry
- Active subwoofer with 110 Watt amplifier
- JBL wood laminated finished home entertainment system
- Magnetically shielded to prevent colour picture interference

JBL

SCS Series

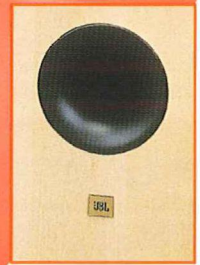

SCS175

With SCS175, JBL has taken the concept of the surround system to a higher level. Designed and manufactured in Scandinavia - famous for superior furniture design - JBL has not cut corners to ensure that these speakers fit any environment. A true center channel compliments the four well-proportioned satellite speakers while an impressive 110 Watt active subwoofer injects a bucketful of bass.

The system is both functional and attractive; the true center channel contains two 100mm woofers and

one 10mm polymer tweeter, the satellites are ideal for stand mounting or shelves positioning and the complete system is available in an attractive black, beech or brown cherry finish.

Surround systems have a notable presence in the home environment. Through SCS175 JBL embraces this notion by designing and building a system that is as impressive to the eye as it is to the ear.
