

A Few Words About the Parts List

All JBL loudspeaker components, both current and obsolete/discontinued are shown.

Many loudspeakers are listed with special assembly notations; to assure proper performance please be sure to review the notes each time a loudspeaker is serviced.

Only the cone or diaphragm replacement kit that is listed for a particular model may be installed in that model for in-warranty repair purposes. Substitutions of other cones or diaphragms are considered as modifications of the product, jeopardizing future warranty coverage.

Our parts kit numbering system --

C*R = Cone replacement

D*R = Diaphragm replacement

The number (*) between the letters is the rated impedance of the kit (4, 8, 16 & 32), where no number is shown the kit is for a Passive Radiator.
