

1. Resistors unless specified are 1/4W, carbon. Letter M indicates Metal Film.
2. Resistors unless specified are tolerance $\pm 5\%$. Letters F and G indicate the tolerance $\pm 10\%$ and $\pm 2\%$ respectively.
3. Capacitors unless specified are mylar capacitors 50WV, $\pm 20\%$. Δ mark indicates ceramic capacitor 50WV, $\pm 20\%$.
4. \triangle (circuit) indicates pin connection.
5. \square indicates the ground on p.c. board.
6. $\text{---} \text{---}$ indicates the ground of chassis.
7. As for the capacitors' capacity, the adjustments are required.
